Paul and Debbie Kroes will lead a tour of their Christmas Tree operation. They have 8 or 9 years of consecutive plantings of roughly 2 or 3 acres each.

The topography is quite hilly and offers great views of the surrounding countryside, which will also provide an opportunity to discuss the physiography and geology of the area.

If time permits, we will walk back to the hardwood bush for a tour.

Registration –No registration required. Please contact John Haak by phone (519-482-3353) or email (janethaak@hotmail.com) if you have questions.
